Kaye's Worsdell's Vegetable Restorative Pills.

For the last thirty years the truth has been gaining ground that to purify the blood is the simplest and most natural way of restoring and maintaining health; and the great and distinguishing feature of these celebrated pills is, that they speedily tradicate all disease from the body, by purifying the blood; thus good health is at once secured, and all may ensure a sound constitution and complete freedom from pain and disease.

The pamphlet enclosed with each box of the pills gives most interesting particulars of many hundreds of cases of cure, together with instructions for the use of the medicine.

CHOLERA, DYSENTERY, DIARRHŒA, CRAMP, AGUE, FEVER, RHEUMA-TISM, CONSUMPTION, ASTHMA, COUGH, &c. LL PAIN, VOMITING AND DISTRES A ceases in a lew minutes after taking a doe of that wonderful Sidative ANDYNE and ANTISTAR MODIT remely discovered by Dr. J. Collis frowns M.R.C. S. L. (ex. Army Med. Staff) the recipe of which was coulded solely to J. Davenport, 38 Great Itus-rell street, Bloomsbury-repare, London (Pharmacelisal Chemist). The medical testimony of civil, hospital, military and naval practitioners pronounces it invalutants. It refleves pain of any kind, soothes the restlessness of lever, and imparts the most reflexing sleep, without producing or eaving any of the unpleasant effects of optium.

As a proof of its effency, a few extracts from numerous Technomials by Physicians and Surgeons are given:

rerous Te-timonials by Physicians and Surgeons are liven:
From W. Vesalius Pettigrew, M.D., Hon, F.R.C.S., angland, formerly Lecturer upon Anatomy and hysiology at St. George's School of Medicline: "I aware used it in Consumption, Asthma, Diarrheaa and ther diseases, and am most perfectly satisfied with he results." the results "Dr. Gibben, Army Medical Staff, Calcutta: "Two doces completely circulame of Diarrhoa." From C.V. Ridout. Fay., Surgeon, Egham. "At an astringent in severe Diarrhoa and an antipas modic in Colic and Cramps in the Abdomen, the relief is instantaneous."

London, as to its efficacy in Cholera.

1st Stage of Premonitory—In this stage the remedy acts as a charm one does generally sufficient.

2nd Stage, or that of Vomiting and Purging—In this stage the remedy possesses great power, more than any other we are acquainted with, two or three doese being sufficient.

3rd Stage, or Collapse—In all cases restoring the pulse. So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of using it in all cases. From A. Montgomery, beginning it in Section 19 and the pulse of the pulse of the control of the pulse of the

months' severe suffering, and when all other medi-dines had failed."

CAUTION.—In consequence of the extraordinary efficacy of this remedy, several unprincipled parties have been induced to vend imitations. VICTORIA AND BRITISH COLUMBIA, And have just received from him an Assorti Stop Watches, Mexico is but a step. The latter taken, it is not likely there will be a much longer con-

test. The Mexicans are strong in their pro-

testations of the resolution to die " in the last

ditch" ere they will come to terms, but we

doubt if they will hold together that long

France will find a sufficient number of promi-

nent men from various parts of the country

ready to gratify their personal ambition by

assisting to carry out the Emperor's programme-always, of course, supposing the

of the French army. A government once or

ganized, it must stand. The Emperor has no

intention of going to all the present expense

to see his work toppled to pieces like a house

of cards. That, he will prevent by French

bayonets. And, really, looking at the mat-

tion that will persist in destroying itself by

rule Mexico, so long as there is a strong, and

at the same time enligtened, government. It

is a matter of the deepest interest that such

conditions should exist. We must natural-

ly desire the shortening of the route between

here and Europe. The completion of a rail-

way from the Gulf of Mexico to the Pacific

effectually. It would do more-it would

ican ports. It would eventually be the means

of opening an enterprise trade between that

country and these colonies, where our coal,

and resources in lumbering, our ship-building

manufactory, and fishing, could be brought

into play, in exchange for their immense va-

riety of products. A firm and permanent

government where there now is nothing but a

chronic state of anarchy, would enable this

to be brought about. British capital, which

already is invested there to a considerable

extent would be increased, and instead of a

line of steamers between here and Panama

we would save hundreds of miles by having

British line running between Acapulco and

this City. We might expect then to share some portion of the trade in which Califor-

nia is annually deriving increased advanta-

ges. According to an article in a late num

ber of the San Francisco Mercantile Gazette

this trade, for last year has vastly increased ;

over-running, in fact, that of the two previous years combined. In 1861 it amounted to

\$217,385; and in 1863, to \$484,217. These

figures show the growing importance of the

commerce of the west coast of Mexico, not-

withstanding the unsatisfactory state of the

country. Under a good government, there is

SINGULAR COINICDENCE. - Some six week since a gentleman at Port Angelos dreamed that he was to receive intelligence of the death of one of his chidren in the States. Though entirely sceptical in regard to such things, yet the circumstance made a deep impression on his mind as to cause him. at the time, to make a memorandum of the fact. Though he endeavored to banish the idea from his mind as absurd, yet he could not do so, and expressed to several of his friends his conviction that his dream would prove true, and watched the arrival of letters from home with deep anxiety. He also wrote to his wife of his conviction, and his dread of the news which awaited him. On Sunday last he received a letter from home informing him of the death of his youngest boy. Intelligence from Bentinck Arm,

Mr. Wallace, who arrived from Bentinck Arm in the schooner "Ino," has favored us with the following items of intelligence.

Mr. Wallace is the bearer of a Petition to His Excellency the Governor, which had been agreed to at a meeting of settlers, held after the murder of poor Robert Macleod, and has undertaken to present the Petition, personally, to his Excellency.

The Petition, after relating the circumstanes attending the murder of Mr. Jno. Holmes, Mr. Fisher, late Sergeant of the Royal Maines, Rob't Macleod, and a German, name not mentioned, and referring to the threatening and overbearing attitude assumed by the Indians, and the insecurity felt by the settlers, pracs for the assistance of the Government, and requests that a ship of war may be dispatched thither for their protection.

Mr. Wallace informs us that from Estucch

to the mouth of the Arm he estimated the far as we are concerned, we care not what our cotemporary says, for it can never do us not anyone an injury where tt is known, so utterly is it without influence. Its praise and censure are alike to us. But for the credit of the place abroad, we would like to see a little more common sense used by our cotempolate the more common sense used by our cotempolate the terminal transfer of Indians at 2,300, or the words. They are very insolent and unruly, and it is not an uncommon occurrence for some of them te enter the settler's dwellings; and endeavor to provoke the latter to resistance, by spitting upon them, and insulting them in various ways. Our informant gives a glowing description

Our informant gives a glowing description of the advantages which the Bentinck Arm route offers over other roads to the mines.

When he loft there was no snow anywhere on the trail, except about four inches at the slide at the head of the Arm. Capt. Troval-

van, who had been employed to survey the oute, spoke in eulogistic terms of it, and had nade a highly favorable report to His Exmade a highly favorable report to His Excellency the Governor. He reduces the distance, from what it was formerly laid down, very considerably, avoiding all lakes and bridges, except one over the Chilecaten River. He informed Mr. Wallace, that in many places he passed over ten or fifteen miles of grass prairie as level and smooth as a carpet, which would only be interrupted by patches of woodland, composed of small pine timber four to six inches in diameter.

Two packers—Dan Kendal and his partner—had come down from Cariboo. They reported the trail good—a perfect level all the way from Fort Alexander to the Precipice—and said, if the road was not made by next winter, they would put down stakes, and sleigh over it all the winter. There was no interruption, they said, anywhere, after they were up the slide.

Mr. Wallace further adds, that packers generally are beginning and many haven have de-

They expressed a wish that the Government would not make a grant to any one, as they would prefer making a free road of it themselves. They can now

go through with their horses and goods in twelve to fourteen days.

Horses thrived well through the winter. They were sent out every day, and fed at night on hay, which was abundant.

The wagon road as laid on will leave the Brigade trail road as laid on will leave the Brigade trail about eight miles south of Williams Lake, taking a direct northerly course until it strikes the head of Deep Creek, and will then follow down the valley of that stream until it intersects the river trail, two miles from Soda Creek. From the steamboat landing which will be a hulf-mile above this stream, the cond will fellow the river's bank to Alexan.

This route will save a distance of eight miles between its deviation from the Brigade trail and its intersection with the same, and will be two miles less distance from Soda Creek to Alexandria than the present road by Mud Lake. The contractors were fortunate enough to strike a fine stretch of open prairie country, from Mrs. Jones' place to within four miles of Frank Way's ranch in Deep Creek, which is destined next year to be occupied by farmers for raising grain and grazing purposes.

The season is very favorable in the valley

of the Fraser. During the early portion of April the Weather at Alexandria was warm and beautiful. The ice in the river as far as he mouth of Quesnelle broke up on the 4th of April, and when Mr. W. left the river was

rising rapidly.

The new steamer Enterprise was expected to be running by the 5th of May. She will probably be the lightest draft of any steamer in British Columbia, and has a carrying capacity of 5t ons. She is intended at present to make tri-weekly trips, leaving the mouth of Soda Creek on Monday, Wednesday, and Friday and from Quescelle River on the alternate days. The rates of freight have been fived at 5th per ton c 2000 pounds, and passive the state of the state fixed at \$40 per ton of 2000 pounds, and pas-sages for men and animals \$8 each. In the upper country those prices are considered very low. The distance of land travel saved by he steamer is about 60 miles. Already large quantities of provisions are on their way to the steamer landing, destined for reshipment

Captain Grant has been sent above with Captain Grant has been sent above with directions to expend a considerable amount of money in either improving the mule trail from Quesnelle River to Leghtning and Wil. liams Creeks, or in the construction of a wagon road. Mr. Wright's wagon road is progressing fast. He has by this time 150 men at work, mostly of those who were employed by him last year. He confidently expects that the road will be finished to the steamboat landing by the 15th of June, and to Alexandria during the first part of July.

The road from Lillooet is now in good condition. On the 20th of April one of Mr. Wright's ox teams transported 8,500 lbs of freight across Pavillion Mountain, and were met by him with the same loads a few miles this side of Bridge Creek. The snow on this line of road has entirely disappeared.

wheat during the ensuing fall.

On the Douglas route the new steamers are nearly finished. Goulding & Co.'s will be ready for a trial trip during this week, and Taylor & Co.'s in about three weeks. Goulding's boat will run direct from the lower end of Tenas Lake to Pemberton. As soon as she is running stage passengers leaving Douglas at 3 a. m., will reach Lillouet

and Douglas at 3 n. m., will reach Enhanced about 9 p. m., on the same day.

At the mouth of Quesnelle there is a town springing up, which bids fair to be the largest interior town in British Columbia. The entire business of the present routes and of the projected coast routes, must eventually centre here. About a dozen buildings were in process of erection when Mr. Wright left, and the machinery for a saw mill is on the way from Lillooet to that point.

If they should also be sent to make surveys of the agricultural lands, situated on the line of the wagon road, so that parties could purchase from the Government, a considerable sum could be relized at once—as all settlers would avail themselves of the opportunity of buying, in river, and two were being built for the themselves of the opportunity of buying, in order to put their titles beyond question. A large amount of freight is now leaving tillooet. A number of ox-teams are already employed for the summer in transportation, and a great many more will soon be put on. Under any circumstances, the rates of freight to Quesnelle river must be materially lessened.

Judge O'Reilly was within a half day's ride of Williams Lake, where he would await the arrival of Capt. Grant to co-operate with him in commencing the Quesnelle River road. We extract the following from the British Columbian:

Mr. J. T. Scott is now engaged in building a levee along the river edge extending from the Pioneer Saloon to the Liverpool wharf, a distance of 914 feet. On the evening of the 7th, while lying at anchar, 2 canoes containing four men came alorgside and asked us to remain there that night, as they would go in the bush and shoot some deer for us: we informed them that we had some venison on board, and did not require a further supply. They then went on shore and encamped for the night. The following morning one Indian came off to us and encarored to steal a bag containing salt—but was detected in the act by Charles—he then went ashore. We then weighed anchor and, as the wind was light, commenced to pull her out with sweeps. The two canoes upon this came under our stern and held on to Charles --- sirname unknown, and myself pull her out with sweeps. The two cance upon this came under our stern and held on t ir little boat. James Freeman then told our little boat. James Freeman then to the to leave their hold of the boat, as they were stopping the vessel's progress; they, however, still continued to hold on. Suddenly three shots were fired. James Freeman was shot dead at the tiller, and Charles mortally wounded. He survived probably about three-quarters of an hour. I then jumped be low and seized the cabin arms, and fired low and seized the cabin arms, and fired about ten shots at them as they were pulling on shore. On their landing they immediately concealed themselves behind a free and fired several more shots at the schooner. They then re-embarked in the cause and stood across our bows, firing several during the time : this was the last I saw o them. We would like to see how much sympathy could be got up for that class among the radicals.

It will be recollected that the greater por-tion of the President's Message to Congress was devoted to plans for saving the Union, one or two of which were fully elaborated.

one or two of which were tarry endorsteen. The Republican Congress, to which it was sent, passed the whole session without taking the least notice of the President's recommendations. Having thus contemptuously given the President's plans the go-by, we may conclude either that Congress looked upon him as not the man to save the country, or, it his plans were the only ones practicable, that Congress was not disposed to save the country.

President proposed his measures with solemn injunctions as to their necessity, and invoking Cougress to retrember that history would hold them responsible for failure, not one of them was adopted, or decently noticed.

F. O. J. Smith, for many years a promnent Maine politician, and at one time a styled "Fog" Smith, has made a speech in the Maine Legislature in favor of annexing Maine to Canada. im as not the man to save the country, or,

Davidsen's place, on Williams Creek, is now the head of "buggy navigation," when our informant left there it rescabled a livery stable. Mr. Wright's pioneer buggy was housed on its arrival there, by the hoisting of the American Flag, and a free invitation to all present to indulge in a hot milk punch, turnished ad libitum, out of a four gallon camp kettle. This latter compound, by the way, is now one of the most frequent "hardships" that car Caribooites have to endure on their upward trip.

The reports from the mines are not exaggerated. Although not on Williams Creek. Mr. W. daily saw miners from there who spoke of the extraordinary yield of the Hard Curry Claim as a matter causing no astonishment. They were, at last accounts, realizing from \$8,000 to \$12,000 per day, and, probably, have now over \$200,000 on hand.

There had been two fires in Yale, one on Monday night destroying the rear of B. Balley's building, the other on Tuesday night destroying a stable, containing \$600 worth of hay and two horses; loss, \$1000. The latter fire was the work of an incendiary. Packing out of Yale was very lively.

A Mr. Blackhawk, of Yale, applied to Judge Begbie to account for a riding saddle which he lent him over two years ago. The Judge deefined to give any satisfaction what ever, whereupon Mr. Blackhawk went to the Magistrate, on Monday, and caused a summons to be issued. The Judge, much anonyel at the disagreeable turn the matter had taken, tried to induce him to drop it, but Mr. B, was inexorable, informing Mr. Beg-bie that the was going to have him tried before his superior. The amount of claim, including costs, was paid in early next morning, and so the matter ended. SHANDOING..... J. H. CORDING & CO. GOLD, SILVER, COPPER

WOMEN AND MATCH-MAKING .-- Aint it curi wolld's weddin' is never out of women's heads? They never think of nothin' clsa. A young girl is always thinkin' of her own. As soon as she is married, she is a matchmakin' for her companions; and when she is a grain older, her darter's wedding is uppermost agin. Oh, it takes a great study to know a woman. How cuntin' they are? Ark a young gal the news, she'll tell you of all the deaths in the place, to make you think that she don't touble herself about marriage. Gout and Rheumatism.

The essence of these diseases lie in the blood, which
has, floating through each vessel, the pain-giving
poison, which irritates and inflames every tissue it
comes in contact with, and produces the hot, swollen,

Heaven has given us a fine climate, a good harbor, a natural position as the entrepot to a great part of Washington Territory and British Columbia; and in the present condition of American affairs so situated that with a Finer Pour and No Debr of any amount, we can supply a great share of the Pacific coast cheaper than they can possibly be supplied from elsewhere.

I am fully alive to the advantages we possess and it is my anxious desire to forward our interests, particularly railrond and harbor enterprises; to watch and guard against corruption and misgovernment; to see that equal rights and cheap administration are preserved; that law costs and lawyers are looked after, without permitting to them exclusive privileges or business monopolies; that the merchant, tradesman, mechanic and artizan is protected and supported; land granted free, or a nominal rates to actual settlors, with a view to encourage that impertant interest preculators and land jobbers checked and frustrated, and that the all-pervading rule of Government flicials, dabbling in mines, town sites and public lands, may be abolished.

CENTLEMEN,—YOU WILL SHORTLY BE called upon to exercise the most sacred rights of Britons, in selecting men of your own free will to manage your own local affairs, scrutinize and correct the course of Government, and adjust and impose taxation. While I feel that I have no especial claims to public support, I do claim, in common with my fellow citizens, that I have embraced my capital, brought my family, and expended some portion of my past energies here; and that in a new country like this I have a right to aspire to a position in the mangement of the public laffairs. I do not seek any office of emolument—I have exver done so, nor is such my sim now. I am content to earn my living independent of Crown patronage; but the honor of representing my fellow citizens is a distinction which any man might be proud of, and I aspire to that. I hold the equal rights of all men to be of the first importance in all cases of legislation, and know no distinction of creed, color, or country. Every colonist who has settled in this Colony as his future home, is cutiled to equal privileges with his neighbor, and for such principles I will always contend.

Heaven has given us a fine climate, a good har-

There are many other public questions of great importance upon which I will speak hereafter, as they cannot be referred to within the limits of this address, but if you see fit to honor me with your confidence and support, you may rely that for neither inducements of office or patronage, no printing or other jobs will pass without exposure. And should it not be your pleasure to elect me, I will support cheerfully whomsoever you think fit to elect, so long as they follow a line of policy similar to that thave here laid down.

I have the holor to be Gentlemen,
Your obedient servant,
EDWARD BEATTY EARLES.

Sir."—I cannot resist informing you of the extraordinary effect 1 have experienced by taking
only a few of your LOZENGES. I had a cough
for several weeks that defied all that had been
prescribed for me; and yet I got completely rid of
it by taking about half a small box of your Lozenges, which I find are the only ones that relieve
the cough without deranging the stomach or digestive organs,
I am sir, your humble servant,
P. HAWKER.
